

## TWO OFFICERS, BANDIT KILLED IN CHICAGO AREA

### Finish Capital vs. Labor Fight Is Feared

#### SITUATION AT TOLEDO HELD FOREWARNING

#### 1,000 Guardsmen Are On Duty in Ohio City Today

**BULLETIN**  
Toledo, O., May 24—(AP)—National Guard troops opened fire with pistols at 2 P. M. CST. as they pursued a mob of rioters between houses and down alleys in Elm streets near Michigan street.

Washington, May 25—(AP)—Threats of a finish fight this summer between industry and labor unions—with the battle lines extending across the nation—stirred the capital today.

News of deaths in Toledo—where troops fired on strikers in savage rioting—came on the heels of a threat of a general strike in steel unless employers recognize the Amalgamated Association of Iron, Steel and Tin Workers.

William Green, president of the American Federation of Labor, told newsmen things looked "very ominous indeed." Some government officials reluctantly agreed.

#### BULLETIN

Toledo, O., May 25—(AP)—A 12-year-old boy received a bad head injury this afternoon when he was struck by a gas projectile fired by National Guardsmen in dispersing rioters who had stoned them near the Electric Auto-Life riot sector.

The wounding of the boy became known when a police ambulance was called to a home in Michigan street near the patrolled area. Guardsmen arrested five men after the skirmish. A gas bomb which a rioter tried to pick up and hurl back at the soldiers exploded, but the man escaped injury.

At 1:30 P. M. CST. it was estimated that about 1,000 persons had again congregated in groups at Michigan and Elm streets and intersections. These intersections are one block from Champlain and Elm street, where Guardsmen fired gas bombs and a bayonet charge retaliated yesterday after submitting to 90 minutes of stoning.

The crowd made no immediate attempt to return again to the Champlain and Elm intersection and Elm intersection where the guard outpost was maintained.

Other parts of the riot sector were quiet and the crowd had not assembled except at the intersections named.

**REACH AGREEMENT**  
Minneapolis, May 25—(AP)—Peace plans vesting in a board of arbitration blanket power to adjust all differences between employers and employees were agreed upon by representatives of both factions early today after Governor Floyd B. Olson had worked all night with conferees in an effort to terminate the riotous truck drivers strike.

The government predicted trucks "would be moving sometime this afternoon," after conferences during an indefinite truce declared last night following one death and injuries to scores in riots marking the 11-day strike.

**TROOPS AT TOLEDO**  
Toledo, O., May 25—(AP)—A thousand Ohio National Guardsmen, behind fixed bayonets and machine gun nests, held back a moldering crowd at the strike-front Electric Auto-Life company plant today as Federal and state authorities sought to ease the tense situation with mediation.

Charles P. Taft, Cincinnati attorney and son of the late president of the United States, headed a group of mediators trying to bring strikers and company officials to common ground. The progress was slow and hampered by the ill feeling of the rioters who haunted the area in disorganized groups. Corner Frank G. Kretz of Lucas county today planned an inquest into the death of two men shot by guardsmen during a frenzy of rioting yesterday. Kretz said the inquest will be held tomorrow and that county officials and guard officers will be called to testify.

**Shotgun Wounds**  
The coroner announced that a preliminary examination of the body of Frank Hubay, 27, one of the two victims, led him to the belief that the wounds were inflicted by shotgun slugs and not rifle bullets. There were three gunshot wounds in Hubay's head, one in his chest.

The other victim for which an inquest will be held was Steve Cysion, a 20-year-old youth. Several others were wounded by gunfire and approximately 150 have been injured in the three days of rioting at the plant.

Adj. Gen. Frank D. Henderson in Columbus announced today he is leaving immediately for Toledo and

#### POPULAR AMBOY MAN SHOT SELF TO DEATH TODAY

**Despondency Over His Ill Health Caused Ray Leake's Suicide**

Ray Leake, well known throughout Lee and adjoining counties, for years active in contracting construction of sewage disposal and water systems, took his own life this morning about 8 o'clock in the work shop in the rear of his residence in Amboy. A bullet from a 32 caliber rifle was fired into his brain, entering just above, and between the eyes. His wife discovered the body lying on the floor of the shop some time later.

Mr. Leake arose at his customary time this morning, and was about the house and his workshop. About 8 o'clock, Mrs. Leake noting his prolonged absence, went to the shop and made the gruesome discovery. Death had been almost instantaneous. The rifle lay on the floor near the body.

About two months ago, Mr. Leake submitted to an emergency operation for acute appendicitis and for days was in a critical condition. He was reported to have been worrying over the fact that he was not regaining his strength and this is believed to have caused his rash act.

**Native of Amboy**  
He was born in Amboy, Feb. 6, 1893 and received his education in the Amboy public and high school. Upon his graduation he went to Valparaiso, Ind., where he learned the plumbing trade. He returned to Amboy and engaged in his trade and was also associated with his brother, Fred W. Leake in many large contracting projects in the construction of sewage and water systems.

He was a member of Dixon lodge No. 779, B. P. O. Elks; Illinois Central lodge, No. 178, A. F. & A. M.; and of Amboy Chapter, No. 194, R. A. M. He is survived by his widow, two daughters, Misses Jane and Maxine; and one son, Raymond, at home; his aged mother, Mrs. Ella Leake; two sisters, Mrs. Roy Brink of Amboy and Mrs. Gertrude Spencer of Los Angeles, Calif.; and three brothers, Fred W., County Supt. of Highways, Dean of Amboy, and Harold of DeKalb.

Corner Frank M. Banker of Franklin Grove went to Amboy this morning, where he conducted an investigation and ordered the body removed to the Vaughan mortuary where an inquest will be conducted Saturday afternoon at 2 o'clock.

Ray had always been very active in his trade and as diversions was an ardent lover of the outdoors and sports. He was an accomplished musician and for several years has conducted one of Lee County's most popular orchestra organizations. He was always of a very cheerful disposition and was loved and admired by all who knew him. The word of his sudden passing is a distinct shock to his host of friends who extend their sympathy to the bereaved family. Funeral arrangements had not been completed today and will be announced later.

#### Julia Rooker and Earle Nolan Will be Given Watches

The large student clock in the east display window at the Trien Jewelry store stopped this morning at 13 minutes to 6 o'clock, after about ten days of anxious waiting on the part of students of the Dixon high school, members of the 1934 graduating class. Their names adorned the face of the big clock. The hands stopped on the name of Miss Julia Rooker and Earle Nolan, who will receive beautiful Gruen watches of the latest and most popular models. W. E. Trein has conducted this interesting event for the past five years and the watches are presented by him personally to the students and are not the gift of any manufacturer. The display window has been the scene of almost as great interest as the final days of study during this week.

**Mrs. Wynekoop Stops to Loose Weight is Rational**

Springfield, Ill., May 25—(AP)—The state today found that Dr. Alice Wynekoop, rational but bedridden within the Dwight reformatory, is suffering from an old attack of tuberculosis but has ceased to lose weight.

The Illinois department of public welfare, which has charge of the aged Chicago woman who is imprisoned for the murder of her daughter-in-law, announced that two physicians have examined Dr. Wynekoop and that a neuro-psychiatrist, has been called in for consultation.

Dr. Wynekoop lost seventeen pounds since her incarceration several weeks ago, the report said, but lost no weight during the past week.

Less than two months ago she was sent to the women's reformatory to spend 25 years as the convicted slayer of her son's wife, Rheta Wynekoop.

#### Mrs. Stanley Noble Rescued from Cistern After 2 Hours

Mrs. Stanley Noble, residing south of the city limits on College avenue, fell into a ten-foot cistern at her home yesterday afternoon and remained standing in six inches of water for almost two hours before she was rescued. Mrs. Hazel Oster, a neighbor, came to the Noble home and heard the woman's cries for help. She secured a ladder and rescued her from the cistern.

Mrs. Noble had started to walk across the platform of the cistern when it gave way and she fell to the bottom. The timbers which supported the platform had rotted away. Fortunately, there was only about six inches of water in the cistern and she suffered bruises about the body and from exposure, but was resting quite comfortably today.

#### NAVY SURGEONS OPERATED UPON STRICKEN MAN

**Wm. Robinson Is Taken Aboard Destroyer at Tagus Cove**

**BULLETIN**  
Colon, Panama, May 25—(AP)—William Albert Robinson, author and explorer stricken with appendicitis in the Galapagos islands, sailed aboard the destroyer Hale for the Panama Canal Zone and American medical attention at 7:30 A. M. today, the destroyer reported by wireless to headquarters in here.

Los Angeles, May 25—(AP)—William Albert Robinson, wealthy explorer, was reported "doing as well as could be expected" today following an appendicitis operation performed by U. S. Navy surgeons who made a 1,000-mile aerial dash to his bedside at Tagus Cove in the lonely Galapagos islands of the Pacific.

Robinson, who was stricken Sunday aboard his tiny world-girdling honeymoon craft, the Svava, was operated upon last night after the arrival of the U. S. destroyer Hale, which had been dispatched from the Canal Zone. Two navy seaplanes carrying medical officers and supplies, had preceded it.

A message to The Associated Press from wireless operator King aboard the trawler Santa Cruz, which has been standing by the Svava since the Cambridge, Mass., textile engineer, became ill, said: "Hale reports operation performed and Robinson doing as well as could be expected. Planes leaving at dawn to return to Balboa."

When Medical Officers Lieut. Com. Rolfe W. Hutchinson and Lieut. Oscar D. Yarbrough arrived at Tagus Cove Wednesday night they found Robinson's appendix apparently was ruptured and delayed an operation until the Hale arrived with better facilities.

The operation climaxed a thrilling trail of events in which the dash of the planes and the destroyer resulted from the frantic appeal for aid from Robinson's bride, the former Florence Crane, Chicago heiress.

**Ship Provided Ice**  
Word of his illness was first flashed to Los Angeles Sunday by the Santa Cruz whose refrigerator furnished ice with which Mrs. Robinson made ice packs for her stricken husband, on advice relayed from a Los Angeles hospital. Then authorization to send naval planes and the destroyer on the mercy errand was given in

Members of the auxiliary will be on the streets in the business section of the city all day to conduct the sale, the proceeds of which are used to provide benefits for incapacitated veterans.

The sale is endorsed by the city officials, speaking for whom, Mayor or George C. Dixon said today: "The Buddy Poppy sale, to be conducted Saturday by the Veterans of Foreign Wars, is an annual event for the purpose of raising funds to help indigent and disabled soldiers, their widows and orphans. It is a recognized worthy cause, deserving of generous and united public support."

#### East Chicago Officers Found Killed in Auto: Bank Guard Avenged

**Slain Policemen Were Watching Highways for Dillinger**

East Chicago, Ind., May 25—(AP)—Two more police officers were slain today in the bloody game of "get Dillinger."

In this city where Policeman William P. O'Malley was slain January 4 by a man definitely identified as John Dillinger, two officers, Martin O'Brien, 44, and Lloyd Mulvihill, 28, were machine-gunned to death late last night.

Mulvihill was one of the score of witnesses who identified Dillinger and John Hamilton as participants in the slaying.

Two escaped, taking with them one of the wounded. They dumped him on the sidewalk before a south side Chicago hospital three hours later.

The wounded youth gave his name as Theodore Pincus, aged 20. He was weak from loss of blood and attendants said he might die.

The slain robber was a dark man about 27 years old, 5 feet 8 inches tall, apparently a southern European type. He weighed 140 pounds. Taken to Ingalls hospital at Harvey, the second wounded bandit refused to tell police his name. Like his companions, he was swarthy, short, about 24 years of age. Police found a heart and dagger tattooed on his arm, with the initials "D. T."

**Probably Cop Killers**  
Although there was no direct evidence supporting the officers' expressed a theory that the bandits were those who had been seen on a road near East Chicago last night shortly before Policemen Lloyd Mulvihill and Martin O'Brien were shot to death with machine guns. The police had been assigned to guard the rural road, watching especially for an automobile in which John Dillinger was thought to have been motoring toward Chicago from Indianapolis.

Fifty-three and an expert marksman, Jacob De Young, poured a withering fire from a big game rifle into the raiding squad of five men when it descended upon the bank this morning.

That ended the raid, and when it was over De Young said: "I'm sorry I didn't kill them all. They're the same men who killed my son."

**Walked Into Trap**  
The band of five holdup men, masked with handkerchiefs, walked into a trap. The bank was robbed on Feb. 10, when the bandits found Peter De Young, 30, taking his father's place as guard and killed him outright. Since then the town of 1800, a cross-roads hamlet south of Chicago, had been on the alert.

Police Chief L. H. Lagastee saw the road of bandits cruising past the town just before 9 o'clock. He notified De Young and Cashier Milton H. Waterman. He also notified vigilantes. They took up stations outside the bank, armed with hunting rifles, shotguns and pistols. The bandits stopped just after opening time.

Three entered, their leader armed with a sawed off shotgun. He shoved it at Waterman and Cashier. De Young, the president, "got my gun ready," said De Young, telling about it a few minutes later when the bandits had fled leaving one dead and one wounded.

**Picked First Victim**  
"I waited a second to see which I should kill first."

The two Watermans dropped to the floor. Taking a careful bead, De Young dropped the bandit leader. A second bandit was climbing a bank partition, leading to the vaults. De Young picked him off. The third bandit fled.

The vigilantes, one armed with a big game rifle, opened fire at the fugitive, at a mate guarding the door with a machine gun, and at the fifth, waiting in their car, and collapsed. His two companions hauled him into the car and drove away, the wounded man's legs dangling from the car.

Chief Lagastee also believed that the bandits were the same men who robbed the bank in January. He scouted early reports that they were Dillinger followers, and said "it's a local mob."

**Killed, Unwounded**  
The bandits who killed De Young's son in February ambushed him in the bank. As he entered, at 7:30 o'clock in the morning, they shot him without warning and threw his body down a basement stairs.

Besides Waterman and his sons, three others were in the bank when the raiders arrived today. They were Herman Dykema, assistant cashier, and two girls—Aleta Dykema and Cornelia De Young, the latter not related to the bank guard.

So accurate was De Young's aim that he fired only four shots. The girl employees said they weren't frightened.

Milton H. Waterman, 38, the cashier, described the holdup as a gun battle which out-thrills the movie thrillers. He said "we were

## Walk a Mile Before Buying Shoes

By ALICIA HART  
(NEA Service Staff Writer.)

The right home treatments and shoes that actually fit are two factors which insure summer foot comfort. When you set out to buy new sports, street and evening shoes for the hot months, go to a salesman who will measure your feet instead of getting your size from the shoes which you're already wearing.

When buying street shoes, it's a good idea to walk a mile before you go in to try them on. Your feet swell a trifle after a long walk in hot weather and if you buy shoes while they are in that condition, the new shoes always will be comfortable no matter how long you have them on or how far you walk.

Sports shoes usually come in wider widths than street models. In that case, you can get them a half size shorter than you generally wear. However, remember that most women need all shoes a half size larger during the summer months. In other words, don't buy shoes until your feet have been accurately measured.

Stockings should be exactly the right size. If they're too long, they will wrinkle around the toes, causing blisters. If too short, they are apt to crowd the toes, making them ache. And, as a final word, never wear stockings a second day without washing. A fresh pair each and every day is the rule.

## SUPPLY AND DEMAND OF QUALITY.

Discussions pertaining to the salaries of heads of the American Telephone and Telegraph company may not have settled anything permanently, but they have been of considerable public interest in these times.

The matter was brought to public attention first by a report of Commissioner Splawn of the interstate commerce commission. Mr. Splawn was hardly consistent when he intimated on one hand that the talent of the officials and the skill of persons employed was of a much higher order than the state government with which they had to deal, and on the other hand that these men were being paid too much.

We suspect that any concern that set out to engage that kind of talent will find that the demand is great and the supply is small. Human service is governed by supply and demand just as commodities are. Differences lie in comparative uniformity of commodities and the wide range of quality in human service.

In the meeting of stockholders of the telephone company the question was raised as to the salaries paid executives, and the spokesman for the board replied that the large interests of the corporation demanded the highest quality of executives, and that men of such quality had been retained. It was indicated that when better men are available they will be engaged.

Even if the salaries were reduced to a level with those paid by corporations that have been managed in a manner inferior, the effect could not be felt either in wages of employees or rates to the subscribers, so large is the business and so great is the number of employers and subscribers.

The point of supply and demand of men of quality brings to mind again the assertion of Senator McKinley, traction magnate, when he spoke to Augustana college students in one of his last visits to this locality. He referred to the difficulties of finding \$10,000-men, \$20,000-men, and said that "when a corporation wants a \$50,000-man it has to hire him away from somebody else."

When a corporation enters upon a search for a particular man for a particular place it is likely to wish for a larger budget. There is a never ending procession of men through the higher places, trials and failures to fit.

One may write all around the subject and not say more than was told us in our youth in the old-fashioned saying that, "There always is room at the top."

## DEBTOR'S LAMENT.

President Roosevelt's decision that nations which don't begin soon to make a serious effort to pay their war debts will be regarded as defaulters seems to have aroused something of a storm in the English press.

One London newspaper reporting the story put the headline "Highwayman Act" over it, implying that Uncle Sam is changing from Uncle Shylock into Dillinger's kid brother.

Now this is probably quite human and natural; a man who has long since made up his mind that he is not going to pay a debt is bound to feel deeply irritated when his creditors suggests that he ought to have a little something on account. And yet it is hard to feel a great deal of sympathy for the viewpoint.

If Uncle Sam, who loaned a lot of money in a war that he didn't start, is a highwayman for wishing he could get some of it back, what are the nations which emerged from the war with their pockets full of reparations, colonies, steamships and mandates?

The police find it difficult to understand a social system which concerns itself so much with the so-called rights of criminals and so little with the safety and security of the law-abiding public.—Police Commissioner John F. O'Ryan of New York.

## READ THE STORY, THEN COLOR THE PICTURE

"My goodness! You know how to bake," said Doty. "This is a dandy cake. Gee, I could eat another piece of it, if there is enough."

"Well, Miss, just help yourself to some. Eat on as long as there is a crumb," replied the kindly baker. "I just love to see you stuff."

"Perhaps the reason it is so grand is because you two girls lent a hand. I think you'd make good bakers. Would you like to stay with me?"

"Of course I bake the live-long day, but I'd let you have time to play. My good wife would treat you fine, and you'd be happy as could be."

Wee Doty smiled and said, "You are kind, but we just could not stay behind. You see, we are both born travelers, and must be on the go."

"I know the other Tinymites would miss you while out seeing sights. We will, however, stay a while and help you mix more dough."

NAVY OFFICER'S  
SLAYER CALMLY  
TELLS OF CRIMEHitch-Hiker Points to  
Body of Benefactor:  
Unmoved

Kinsley, Kas., May 25.—(AP)—Leo Hudgins, a hitch-hiker, calmly awaited action of state authorities here today after he had pictured to officers the struggle which led to the slaying of Lieut. Com. S. J. Trowbridge, naval officer.

Brought here from Marietta, Okla., where he told officers he

had killed the naval officer in an argument over "hitting the bumps" in the road. Hudgins was taken to the place where he had left the body.

Without a show of emotion he pointed to the body as that of the man he had killed and showed officers how he had struck. Trowbridge on the head with a hammer had dragged his body from the car and tossed it in some weeds.

Trowbridge, who was driving from San Diego, Calif., to Hayward, Wis., had picked up Hudgins near Shattuck, Okla. Hudgins said he took turns at the wheel and was driving when the argument started.

FOR FORGERIESAlleged to Have Cash-

Money Orders

Minneapolis, May 25.—(AP)—J. J. Cameron of Waukegan, Ill., and his wife, Betty Pikula, alias Betty Lee and Betty Cameron, were separately charged with second degree forgery in complaints issued here by Hennepin county Attorney Ed J. Goff.

They are charged with passing forged American Express Company money orders which had been stolen from the A. E. Esen drug store here. Both defendants were arrested at Milwaukee, where they had been living the last few days.

Married Five Weeks  
They were married at Waukegan five weeks ago.

The woman was arraigned today before District Judge Lars O. Rue and pleaded not guilty. Her trial was set for May 28. Cameron will be arraigned Thursday.

In a signed statement the woman said she was formerly married to George Pikula at McKeesport, Penna., and has never been divorced. She said she married Cameron under the name of James Lee at Waukegan April 10, 1934, and believes that he also has another wife living.

The forgeries alleged in the complaints occurred about April 16, at which time Mrs. Pikula was living in St. Paul.

## VACATIONS

The origin of vacations is lost in antiquity. Possibly the summer vacation habit first developed among town dwellers as a way of escaping the pestilences of the city in summer. Going to the country in times past was largely a matter of preserving health by avoiding epidemics.

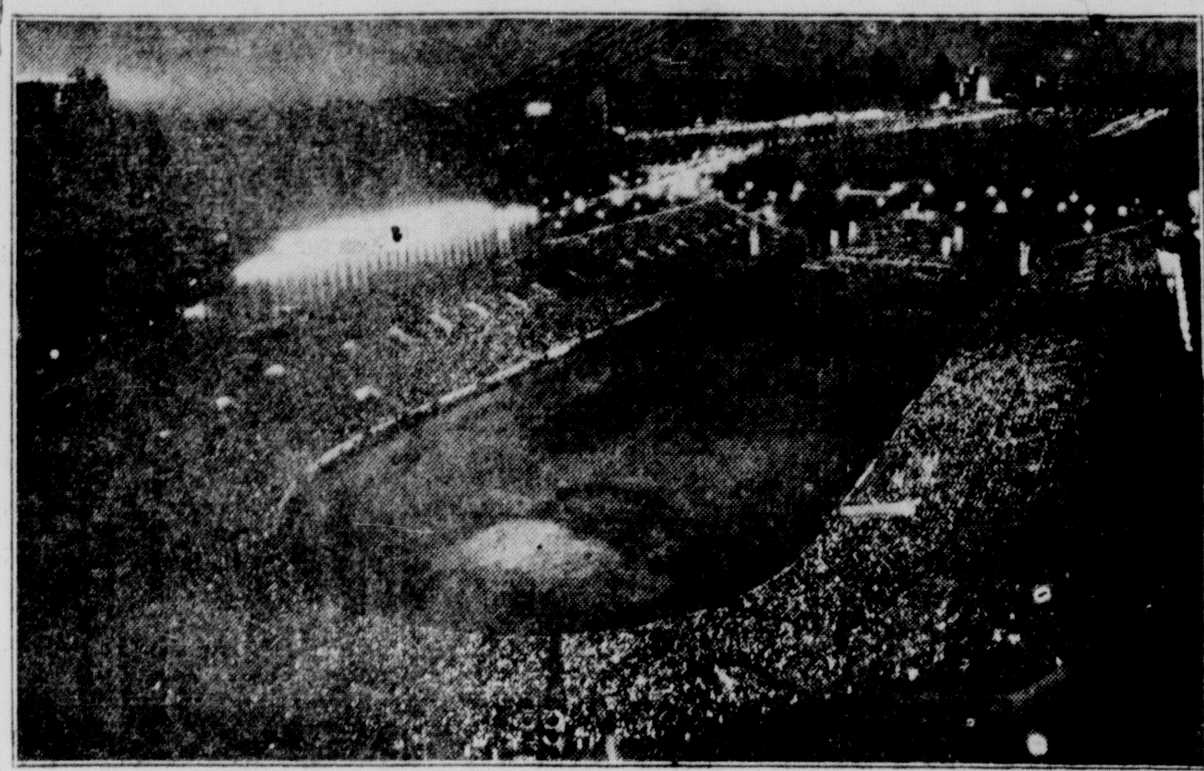

To appreciate this we must realize that before the days of the refrigeration of food, the pasteurization of milk and the hygienic handling of human wastes and sewage, the summer months constituted the season of highest mortality. In other words, the warm season was the unhealthy season.

Today, as we cart our mortalities over the twelve months of the year we find that it is the cold rather than the hot season that witnesses the largest number of deaths.

In the hot seasons before the modern hygienic regimens were instituted, the diarrheal diseases of infants, the so-called infantile cholera, caused the deaths of many infants and children. The spoilage of food, the flourishing of insects, the contamination of water, all exacted their toll.

It was probably largely for this reason that those who could afford it, from the time of the Ro-

## Festival Will Thrill World's Fair Throngs

More than 10,000 musicians, including 6,000 singing voices, will participate in the Chicagoan Music festival in Soldier Field, adjacent to the Chicago World's Fair, Aug. 18. Shown above is one of the giant crowds which attended this annual mecca of music-lovers, sponsored by the Chicago Tribune and cooperating newspapers. More than 475,000 have seen the festival during the last four years.

mans on, left the crowded metropolis during the hot months of the year and sought refuge in the cool and isolated quarters of the countryside.

In more recent times the value of the vacation has come to be appreciated from other angles. It has been found from practical experience that periods of rest intensify the productive capacities of individuals.

The wear and tear of present day industrial life imposes a burden upon the individual which he is better able to bear when he has periodic vacations.

Taking this rest period or vacation in the summer months has its special advantages. For one thing it makes the hardships of the hot season less difficult to withstand. Then too, it gives the individual because of the length of the day, special opportunities for outdoor living.

Tomorrow—Typhoid Fever.

## LEGION'S NAT'L. COMMANDER WILL BE AT DEKALB

Edward A. Hayes to Deliver Address There Coming Sunday

National Commander Edward A. Hayes, of the American Legion, who is an Illinoisian from Decatur, is scheduled for an appearance and address at DeKalb, Ill., on the afternoon of Sunday, in connection with a pre-Decoration Day gathering and convention of all of the members of the American Legion from the second division of Illinois.

Arrangements for Hayes' appearance at DeKalb are being made by Thomas Marshall of Belvidere, commander of the Legion second division and vice-commander of the Illinois department.

Commander Hayes will speak in DeKalb in the Northern Illinois State Teachers College auditorium, the visit being sponsored by the DeKalb post of the American Legion. His address, which will be open to the public, will be made in the afternoon, giving everyone an opportunity of hearing the message, which he will bring.

Hayes is perhaps the most brilliant of speakers ever to head the Legion organization of a million men and it is expected that the large auditorium at the State College will prove to be inadequate for those who wish to hear him.

Plans now drawn include an informal meeting of all Legionnaires at the K. of C. hall in DeKalb at 1:30 P. M. Promptly at 2:30 a parade will form and march to the State College, and at 3 o'clock, the meeting will start, with a concert by the DeKalb Township High School Band.

State Commander Charles Kapsch will be present and will introduce Commander Hayes.

## STATE FACING THIRD CRISIS IN RELIEF FUND

Another Special Session of Legislature Seems Probable

Springfield, Ill., May 25—(AP)—Illinois today faced the possibility that another unemployment relief financing crisis might arise before the \$30,000,000 bond issue program is submitted to a referendum in November.

To raise additional funds, another special session of the legislature may be necessary.

State Treasurer John C. Martin is preparing to take bids on an additional \$5,000,000 of revenue notes backed by the bond issue, which was approved by the first special session last fall.

Since January the state has sold \$15,000,000 in revenue notes, representing half the funds provided by the bond issue. Because of the heavy expenditures by the Illinois Emergency Relief Commission, the rest of the funds will probably be spent during the summer and autumn months.

Martin announced that week that the \$5,000,000 worth of revenue notes, bearing five percent interest, will be sold June 5. The funds are turned over to relief commission officials at Chicago.

## National Trees

According to the secretary of the British forestry commission, "there is no 'national tree' for Great Britain." But judging from the crests of the Royal English Forestry society and the Royal Scottish Forestry society, the oak tree has been adopted as an emblem by Great Britain, and the pine tree by Scotland. The Canadian legation at Washington states "no tree has been officially designated as a 'national tree'."

However, the maple leaf is regarded as Canada's national emblem, and appears in the arms and ensigns armorial assigned to the Dominion by the royal proclamation of November 21, 1921. The particular variety of maple leaf is not therein described. . . . "However, the variety which appears in the arms is the Acer saccharinum, commonly known as the silver maple."

## FORMER MAYOR OF CHICAGO IS TOLD TO DIG UP

Thompson Ordered to Turn Over Relief Fund by Court

Chicago, May 25—(AP)—William Hale Thompson has been ordered to hand over \$31,131 to the American Red Cross.

Acting on the petition of Attorney General Kerner that the former Mayor of Chicago be removed as trustee of the fund, Circuit Judge W. V. Brothers directed a decree be drawn and the money be used for relief of Mississippi valley flood sufferers when such an occasion arises in the future.

The edict marked the final step in the litigation over the \$139,772 donated for flood relief in 1927. Of this sum, \$35,917 was put into immediate use in the river ravaged area along the Mississippi and \$72,779 was assigned to Thompson's Waterway and Flood Control Association of the Mississippi Valley.

Judge Brothers found that the former mayor was not guilty of fraud in employing \$72,779 in the promotion of his association.

The money figuring in the current action—the remaining balance of the total raised—is held in the association's account at the First National Bank.

"Old Man of the Mountain"

The crumbling ruins of a strong hold, neither Christian nor Moslem, those of the "Old Man of the Mountain," stand in Syria. He was an Ismailite chieftain.

How many days of your life are lost in feeling under par? How many hours which might be bright are dull and despondent?

Half-hearted days are frequently due to common constipation. It clouds your waking hours, takes the sunshine out of living. Yet it can be overcome so easily by eating a delicious cereal.

Laboratory tests show Kellogg's All-Bran provides "bulk" and vitamin B to aid elimination. All-Bran is also a fine source of iron.

The "bulk" in All-Bran is much like that in leafy vegetables. Isn't this "cereal way" pleasanter than risking patent medicines?

Two tablespoons daily are usually sufficient. With each meal, in chronic cases. If not relieved this way, see your doctor.

Serve All-Bran as a cereal or use in muffins, breads, omelets, etc. In the red-and-green package. At all grocers. Made by Kellogg in Battle Creek.

## WALTON NEWS

Walton—Recent showers have helped the drought situation. The local farmers estimate half the small grain was destroyed by the long dry spell.

Thomas Leddy of Evanston visited friends here recently.

Several of the farmers have taken advantage of the advance grain prices and have sold delivered their corn to the mill.

Workmen are preparing foundations for a new barn on Curtis farm occupied by Pat L. Phipps which was recently destroyed by fire.

William Smith of Amboy was a recent business caller in this vicinity.

The heavy winds of the past week have blown down several silos.

John Heath has returned home from the Amboy hospital, much improved in health.

Charles O'Hare is helping James Parks with his farm work.

The young son of Mr. and Mrs. Louis Shannon who has been a patient at the Amboy hospital is recovering nicely from his recent illness.

The Beier Bakers booted away a ball game last evening at Ashton piling up nine errors to give the Ashton crew a decision by a count of 12 to 9. Starting off with a four run lead picked up in the opening of the first inning off "Mickey" Barefield's delivery, the Bakers began their exhibition of errors, which gave Ashton a lead that the locals could not overcome. Barefield, who is first string pitcher for Ashton, did not have to extend himself to dispose of the local batters and was given errorless support. The game was the poorest that the Dixon team has played since the opening of the schedule. Edgar Clark was on the mound and did effective work throughout the game to the extent of pounding out a double to open the fifth inning, going to third base on the return of the ball to the infield, where he remained while the three succeeding batters were unable to get the ball out of the infield.

"Shires" Miller and Dick Kehrt started a hitting rivalry in the first inning which came out a double for Kehrt. Miller registered two singles and a double for his evening's performance while Kehrt batted out two singles and a triple. These two players secured half of the Baker's hits for the evening. Ashton scored in every inning but two and took advantage of the Dixon misplays which they converted into tallies. A good sized crowd attended the game, which was preceded by a contest between girls teams from Ashton and Rochelle. The Ashton girls won by a close margin of 10 to 9 in the seven inning contest.

## McLARNIN WILL HAVE BIG EDGE IN THE WEIGHT

### Will Probably Be Ten Pounds Heavier at Fight Time

Atlantic City, N. J., May 25—(AP)—While one half of boxing's most colorful combination, old "Pop" Foster, mumbles of trickery and deep, dark plots, the other half, soft-spoken Jimmy McLarnin, placidly winds up this business of preparing to bring sudden unconsciousness down upon another aspiring young ring man.  
Jimmy is certain he will tag out youthful Barney Ross the lightweight champion, in Madison Square Garden's bowl on Long Island Monday night. You can't get James Archibald to make a positive statement to that effect Jimmy being quiet and reserved, but there is confidence in every line of his perfectly trained fighting figure. He always has knocked the little men out.

Will Crowd Ross  
"All I know about Ross," Jimmy says, "is what I've gathered from the motion picture of his second victory over Tony Canzoneri. He is a fast boxer. I've always found the best way to beat that type was to crowd them into a corner, where speed doesn't count, and let them have it with both hands. It works a very large part of the time."

McLarnin probably will have as great a weight advantage as he ever enjoyed by the time he climbs into the ring. He has to make 145 pounds, by private agreement at noon Monday, or forfeit \$10,000. He is down to 143 3-4. But he will be at least 148 and possibly 149 by the time an expected capacity crowd of 70,000 paying close to \$300,000, settles back for the fifteen-round battle.

Big Weight Advantage  
Ross, a natural lightweight, is not expected to scale over 138 pounds at the weighing in Monday and may be as low as 136. He will gain but a few ounces before ring time, leaving Jimmy's advantage a full ten pounds at least.

Poster a grizzled 60-year-old veteran of bare knuckles days, is satisfied Jimmy's lay-off of a year has not hurt his fighting ability.

"He has never boxed better," he says. "He may not be as fast as he once was, but he makes up for that with harder hitting and he is smarter, steadier and more mature. But I think Ross is planning some trickery with the gloves. I'm afraid we might get a nervous referee in there who'll stop the fight if someone gets cut a little. I don't like the look of things."

Jimmy will box two more days and go to New York Sunday.

## BLANKET FINISH IN NATIONAL IS LIKELY OUTCOME

### Four Leaders Continue Tightly Bunched as Season Advances

By Hugh S. Fullerton, Jr. (Associated Press Sports Writer.)

The current trend of the National League race, instead of heading toward a decision, appears to be keeping the four contenders as closely bunched as possible.

Today's standing found Pittsburgh's Pirates with a clear lead of half a game after their 7-3 triumph over the Boston Braves and New York's 7 to 1 victory over the Cubs. Chicago had dropped to third, a few percentage points behind the Cards, who trounced Brooklyn 7-3 while the fourth-place Giants were only one game out of the lead.

Pirates Advance  
A home run by Harry (Cookie) Lavagetto, rookie infielder, touched off the Pittsburgh fireworks. It came in the seventh to give the Bucs a 3-2 lead in a duel between Bill Swift and Ed Brandt; then Pittsburgh went on to get four more tallies in the eighth. Carl Hubbell, trounced by the Cardinals his last time out, held Chicago to four singles while the Giants belted Bud Tinning and Jim Weaver to score six innings.

The Cardinal advance was the result of steady and timely hitting with Dutch Leonard as the principal victim, plus a couple of Brooklyn misplays and some effective hurling by Tex Carleton. Curt Davis won the other National League contest for the Phillies, 5 to 0, as he limited Cincinnati to three hits.

Browns Continue Spurt  
The St. Louis Browns continued their sparkling American League advance into third place by a 6 to 5 victory over Washington as Ray Pepper hit a home run with Harland Clift on base in the seventh to win the game. Detroit stepped one percentage point behind the Browns by a 6 to 3 triumph over the Athletics, gained when the Tigers smashed Johnny Marcum for four doubles and six singles, most of them in the early innings.

The Yankees stopped their downward slide by taking a 2 to 1 victory over the Chicago White Sox behind Lefty Gomez while Cleveland and Boston were rained out. Gomez who won the only other Yankee victory in the west, held the Sox to three hits.

Other United States  
There are other countries so named than our United States. There are the United States of Brazil, the United States of Mexico and the United States of Venezuela.

## DONNA the BIG TOP

BEGIN HERE TODAY  
DONNA GABRIEL, circus performer, falls from the trapeze and is injured. To please her partner, MADELINE SIDDAL, Donna goes to the circus to recuperate. She is ashamed of this deception but keeps it up, even when BILL SIDDAL, Madeline's cousin, asks her to marry him. AMOS SIDDAL, Madeline's grandfather who owns the farm, is blind. HIS PLANTER, housekeeper discharges by Donna, is her enemy. Meanwhile Madeline has married CON DAVID, circus animal trainer, and takes part in the animal act.

Amos Sidal has a stroke. In New Orleans Madeline goes into the cage alone with the Bengal tiger. The tiger springs and she is killed.  
NOW GO ON WITH THE STORY CHAPTER XXVI  
DONNA started up in the darkness. Her heart was beating furiously and there was a queer, smothering sensation in her throat that made the weight of the bed clothes unbearable. Careful not to disturb her husband, she pushed the blankets from her and slid her feet to the floor. There she stood, listening to the patter of rain on the eaves and shivering, as the wet, icy air from the open window wrapped around her lightly clad body.

What had awakened her? Of course she had been dreaming when she had thought she heard her name called and felt as though something had borne down upon her, crushing the life from her body. What a horrible dream! So vivid she was still in its grip.

She found her flannel robe, slipped into it, and noiselessly crept across the floor.

She reached the door, uncertain why she wanted to leave the room. Her hand was on the door knob when Bill stirred and mumbled sleepily, "That you, sweetheart?"

"Yes."

"What you doing up?"  
"I—I thought I heard Grandfather call," Donna answered thickly, grasping at the first excuse that came to mind for what now seemed a foolish impulse.

Bill switched on the night lamp beside the bed and sat up. "Surely Miss Perkins would hear if he wanted anything. Come on back to bed and I'll run down and see if he's all right."

"No, I'll go. You're tired and I'm fully awake."

Bill dropped back onto the pillow and, almost before she had left the room, was asleep again. There was a dim light in the hallway. By its gleam Donna descended the stairs. The nurse, who had a cot in the living room adjoining the old man's bedroom, was sleeping soundly as Donna passed through the room.

Suddenly, Donna wondered with a spasm of fear, if it had been Grandfather Sidal's voice that had awakened her. He had not spoken for weeks, but suppose in the night—

She stood, hesitating, on the threshold of his room, gaining courage to face what might be death. Then she entered. Amos Sidal lay just as he had for so long—motionless, his snowy head scarcely less white than the pillow.

New York, May 25—(AP)—Frank Merriwell, who eschewed tobacco, forewore swearing and swallowed nothing stronger than his pride, has come in the full glory of his manhood into a federal court.

His creator, W. Gilbert Patten (Burt L. Standish), has asked that the Superior Talking Pictures, Inc. be enjoined from using the name Frank Merriwell in a series of short films it has produced.

Merriwell, as a hundred million nickel-novel readers will attest, was the embodiment of all that is clean, good and brave; a scourge to dastards and venom to villains.

He Could Take It  
Boy and man, he preserved the honor of dear old Fardale and later dear old Yale for 986 consecutive weeks. During that entire period his lips never touched liquor, spoke an epithet or held a cigarette, not even a cubey. He performed his weekly heroics from April 1, 1896, to January, 1915. This is a long time for anyone to attend Fardale or even Yale, but Frank was a glutton for book learning.

Patten, who feels that if Superior Talking Pictures, Inc., went ahead with its Frank Merriwell series he would be damaged \$250,000 worth, said the Merriwell stories had circulated 123,600,000 copies to date. He estimates he has used up 400,000,000 words in telling the world what a grand person Frank is.

First Minstrel, rated by many as the leading juvenile of 1933, and Chieftaw, victor in the Endurance Handicap last fall, have been out only once this year, but showed enough speed to indicate all will not be clear running for either Cavalcade or High Quest.

Race Worth \$20,000  
Mrs. Whitney's colt, a son of Royal Minstrel, won his race by stepping a mile in the fast time of 1:37. Chieftaw finished second to the speedy sprinter, Sgt. Byrne, in his seasonal debut but received all the worst of the start and was full of speed at the end of the six furlongs.

Bob Smith, Brookmeade trainer, originally planned to have Cavalcade for the American Derby at Washington Park, June 2, but the Derby victor has worked so well that Smith changed his mind.

"I've got to keep him in shape," he said, "and I might as well do it by letting him run in a race."

A field of nine is expected to start. First Minstrel will have a capable running mate in Spy Hill. Mrs. John Hay Whitney plans to start Singing Wood, winner of the \$100,000 Futurity last fall, and C. V. Whitney will be represented by Roustabout, W. S. Kilmer by Sundog and Joseph E. Widener by Pence Chance.

The race will be worth more than \$20,000 to the winner.

case, his thin, colorless face turned toward the window.  
Donna tiptoed across the room, bent over the old man and gently touched his forehead. It was moist and warm. She drew a deep breath of relief. His withered eyelids lifted, his blue lips parted, there was an effort and a croaking whisper issued from his throat, "Mad—die!"

She dropped on her knees beside him and pressed her lips to his gnarled hand. "You spoke!" she sobbed. "Oh, Grandfather, you spoke! You are going to get well!"

Almost hysterical at the seeming miracle, she ran into the sitting room and aroused Miss Perkins. "He called my name! He spoke to me!" she cried.

The nurse was matter of fact. "Why not? We've been expecting it all along."

When they returned to the bedroom Amos Sidal's eyes were closed and he was sleeping peacefully.  
Not wishing to disturb Bill again, Donna took a heavy robe from a closet and curled up on the couch until morning. Bill found her there when he came down to breakfast at the first dawn of day. Hearing his steps, she closed her eyes and pretended sleep but he was not fooled. Even her news that Grandfather had spoken in the night was not of as much importance as the fact that Donna had been unable to sleep.

"What is the matter, Honey?" he asked, sitting down beside her and taking her hands in his. "Have you been working too hard or are you sick? Or just

## LAST MEETING TOASTMASTERS HELD THURSDAY

Two Special Gatherings  
May Be Called  
in Summer

The final meeting of the Toastmaster's Club for the season was held last evening in the Guild Rooms of St. Luke's Episcopal church. The club now adjourns until the second Thursday in September except for two meetings to be called by the summer chairman, Howard Byers.

The meeting last evening was well attended and was made interesting through the efforts of four speakers. J. W. Sipe, Carl Buchner, C. A. Mellett and Dr. Kenyon B. Segner. Each speaker talked for about fifteen minutes.

Mr. Sipe gave an account of a trip he and Howard Byers, accompanied by their wives, made recently through southern Illinois, Tennessee and Indiana. He described many of the points of interest in the party visited. Perhaps the item that struck the Toastmasters as most unusual about Mr. Sipe's trip was the fact that he encountered much rain.

Carl Buchner told the story of the development of safety-mindedness in industry. In contrast with the controversies over various innovations in the present industrial picture, Mr. Buchner said, the desirability of teaching and practicing safety is the outstanding point on which all are in harmony. It was interesting to the Toastmasters to learn that the cement industry, as a whole, has fewer employee accidents than any other. The building trades have most.

C. A. Mellett, armed with statistics gave an interesting account of the workings of the National Industrial Recovery Act. The discussion was well prepared and delivered in Mr. Mellett's usually fine manner.

Dr. Segner, who is one of the club's finest speakers spoke on the subject, "Various Degrees of Insanity." So interesting were his remarks that the club broke a precedent, allowing him to continue past the usual time for adjournment.

With the meeting last evening, the Toastmaster's Club concludes a season of very interesting meetings. About thirty-five members have addressed the club at least once during this period. Most of the topics have been of current interest, and the members have found an unending source of material for sane argument, pro and con, in the ramifications of the New Deal.

## Living Our Everyday Lives

THE THREE R'S

(By Joseph Fort Newton.)

In days such as these, if we are to keep our poise of mind and peace of heart, we must master and use the technique of doing it. Nobody can do it for us. It is our job and we must learn the art of it.

Here is the first lesson, so to put it. We must know how to be quiet a few moments every day, at morning, noon or night. The time does not much matter, just so we do it deliberately, methodically and faithfully.

Someone has put it in three words—Relax. Realize. Resolve. Put otherwise, let go, lay hold, and hold on. But first we must let go, let down, unwind, stop the car. "Be still and know," the old Bible tells us.

But to be still means more than to be merely motionless. One can be motionless but not relaxed—every muscle tense, every nerve on fire, and the mind going like a racing auto at full speed in high gear.

That is not relaxation. We must put out of mind the thing that is

boiling up—throw it out and shut the door. Then learn to command both the body and the mind until they obey, and unravel the tension, a thread at a time if need be. It is amazing what a little practice will do.

Do not argue with yourself, much less get mad. Do not struggle; just let go, relax and be quiet. Then Realize—that is, tell yourself a few great truths in which you believe. If we tell ourselves the truth often enough, it will become true or us, and sink into our very soul.

A lovely poem, words from the Bible, or whatever means most to you, affirm it, assert it, realize it. Realize that you are a child of God an heir of His poise. His peace His power—say it to yourself.

Let the truth be true in you, lay hold of it, let it lay hold of you, and Resolve to hold on to it. Resolve to make it more true over a larger area of your life, until it shall be master of all of it.

Relax, realize, resolve—let it be a part of your daily habit, no matter how busy you may be. The fruit of it may be slow in growing, but it will make life more quiet, more confident, more healthy and happy.

"In quietness and confidence shall be your strength," said a wise voice long ago. Here endeth the first lesson.
